Office in Marella building, Main Street.

DENTISTS.
D. C. A. HEERICK
—DENTIST—
JACKSON, CAL.
Office in Kay building. Hours from 9 a. m. to
5 p. m.

D. R. JOHN A. DELUCCHI
—DENTIST—
SUTTER CREEK, CAL.
OFFICE HOURS:—From 9 a. m. to 5 p. m.

RICHARD WEBB
United States Commissioner
JACKSON, CAL.
Will attend to Homestead and other claims;
taking of final proofs and all other Land
Business.
Deeds and other legal documents drawn up.

College of Notre Dame
MARYSVILLE, CALIFORNIA.

Boarding and Day School conducted by Je-
suits of Notre Dame (Nanur). Founded in 1856.
The curriculum embraces all the branches of
solid English education. Preparatory and
advanced courses in art, language and music.

The A. Van der Nailen School
OF CIVIL, ELECTRICAL, MINING, ENGINEERING, ETC.
ESTABLISHED 1861.
Saved Apparatus, Instruments, etc. Open in
all Branches.
Great demand for ex-students in all lines.
New students should enroll at once.
Address, 5100 Telegraph Avenue,
OAKLAND, CAL. my18

ASSAYING.
Gold, Silver and Silver Flue (results guar-
anteed). Samples by mail receive prompt at-
tention. Buyers and refiners of Bullion, Amal-
gam, rich ore, etc. (Send by express or regis-
tered mail.) Mines and prospects handled on
commission. Price list of assaying on applica-
tion.
Oakland Mines Bureau,
865 18th St. Oakland Cal.

NEUHAUS & CO., Tailors,
WORLD-LEADERS in \$20 Suits and Over-
coats made to order; style fit, trimming
and workmanship guaranteed. Call and ex-
amine our \$20 suits and overcoats, or write for
samples, so that you may see that these suits
and overcoats are sold elsewhere for \$25 and
\$30.
NEUHAUS & CO., TAILORS,
1615 Ellis street, San Francisco.

PEOPLE'S SAVINGS BANK
OF SACRAMENTO.

ANDREW PICCARDO
Freighter and Teamster
Jackson Gate Road

Freight hauled from Martell depot
and other points at lowest rates.
All parties wanting freight from
Martell delivered promptly should
have the same addressed in care of
A. Piccardo, and send bills of lading
care Peter Piccardo Water St.
Receipt books, location blanks, deeds
mortgages, promissory notes, etc.,
for sale; also mining signals on
cloth, graduation diplomas, at the
Ledger office.

Copies of the license ordinance of
the City of Jackson in pamphlet form
may be had at the Ledger office; price
15c. each.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

Dark Photography for Fancy Work.—
Meteorite or Scar.—A Great Vault.—
An American Failing.—Papered
Iron.—Alcohol in Bread.—Effects
of Changing Diet.—A Novel
Messenger Service.—A Fireman's
Veil.

A new application of science to
home industry is suggested by Dr.
W. J. Russell. Nine years ago this
investigator discovered that many
kinds of wood produce an invisible
image on dry plates in the dark, and
he has since shown that like action
is exerted by flowers, leaves, seeds,
roots and bulbs—in fact by practically
all vegetable substances except starch
cellulose, gum, sugar, pith and pollen.
The specimens are first pressed
between blotting paper, then laid on
the sensitive plate or paper for few
hours or a day. Pictures on sensitized
satin are adapted for a variety of
fancy articles, and it is predicted that
the making and use of such work will
become very popular among the
ladies. The best results can be had
by placing the specimen and sensitive
material between thick felts under a
pile of books over night, or until
ready to develop. Dry specimens
should be slightly moistened, and
action can be greatly increased by
first exposing the specimens to sun-
shine for a few minutes.

A crater without volcanic rocks is
among the geological wonders of
Arizona. Ten years ago G. W. Gil-
bert supposed there had been at Coon
Butte a kind of subterranean volcano,
or explosion of steam, but the thou-
sands of masses of meteoric iron in
the vicinity have since suggested that
the crater cone is the scar left by the
fall of an immense meteorite. Ex-
cavations are confirming this view.
Meteoric fragments are unearthed at
depths of 300 to 500 feet, and a total
of ten or eleven tons of the iron has
been collected.

The largest room without columns
is said to be in a solid concrete
building of the mosque at Lucknow,
India. It is 162 feet long, 54 wide
and 53 high. The timber mold was
left a year for the concrete to set,
and the building, 122 years old, is
still unimpaired.

The New York accident prevention
exposition of 1907 will be the first in
America. An exhibition of this kind
was held in Germany in 1889; one in
Amsterdam in 1893; and several others
have followed in Europe and Canada.
A number of permanent museums
have been developed. One was es-
tablished at Vienna in 1890; one at
Amsterdam in 1893, one at Munich
in 1900; one at Berlin in 1901; and
even Russia has lately opened one at
Moscow. To show the value of the
instruction in saving life and limb is
cited the fact that America has from
two to nine times as many accidents
among the same number of men in a
given trade as does Europe.

The protection of iron and steel
structures against corrosion by mois-
ture and atmospheric gases is still
one of the serious problems of the
engineer. In recent experiments by
J. F. Barker, various paints proved
ineffective, and he hit upon the plan
of trying paper. This was first im-
pregnated with paraffin wax. The
iron being then thoroughly cleaned
and covered with a sticky paint, the
paper was closely pressed to the ad-
herent surface, with the edges some-
what overlapped. Thus protected,
iron and steel—even the sticky
layer of paint—have remained in per-
fect condition after an exposure to
smoke for 27 months. Papered steel
was also exposed to moist air and
sewer gases, and was not attacked in
any way.

As flour undergoes fermentation
in the process of leavening, it has
been supposed that a little alcohol
might be retained in the loaf in spite
of the oven's heat. This proves to
be the case, one German chemist hav-
ing found from 0.2 to 4.0 of absolute
alcohol in freshly baked English
bread, while another obtained a much
smaller amount—0.05 to 0.08 per cent
—from German wheat bread. Besides
the alcohol, was found a little dark
brown oil, which had the odor
characteristic of new bread.

The meat consumption is the British
Isles increased from three pounds
per person in 1850 to fifty pounds
in 1900. Dr. C. Chalmers, of Edinburgh,
points out that this remarkable
change in diet is having effect in the
evolution of disease, but notes as a
singular fact that there has been a
material decrease in gout, although
diseases often regarded as of gouty
origin have increased. He has stud-
ied the effects on young rats of ex-
cessive eating of meat. He has found
a delayed and imperfect development
of the bones, and a weakened condi-
tion whose counterpart he has ob-
served in a young infant. When the
child was born the mother was being
cured of pulmonary tuberculosis by
a raw meat diet, which had been con-
tinued eighteen months. At the age
of a year the child showed delayed
dentition, became anemic, was
thought to have tuberculosis, and was
fed with raw meat juice for six
weeks. It grew worse and died, its
symptoms perplexing the attending
physician. A piece of its bone ver-
ified Dr. Chalmers's suspicion that its
trouble was that of the meat fed rats,
—exhaustion of the functions of the
bone marrow thyroid gland, etc.,—

and showed that treatment should
have been a diet correcting the ex-
cessive use of meat by the mother.
Carrier pigeons are put to novel
use in a thinly settled district in the
north of Scotland. On long rounds
a doctor takes several pigeons with
him, and when a prescription is to
be filled at once he sends a message
to his surgery, where an attendant
prepares and forwards the medicine.
If a patient is liable to need an extra
call, a pigeon is left to send for the
doctor.

A STUDY IN MILEAGE.

Almost Every Country Has a Stand-
ard of Its Own.

English speaking countries have four
different miles—the ordinary mile of
5,280 feet and the geographical or nauti-
cal mile of 6,085, making a differ-
ence of about one-seventh between the
two; then there is the Scotch mile of
5,928 feet and the Irish mile of 6,720
feet—four various miles, every one of
which is still in use.
Then almost every country has its
own standard mile. The Romans had
their mille passuum, 1,000 paces, which
must have been about 3,000 feet in
length unless we ascribe to Caesar's
legionaries great stepping capacity. The
German mile of today is 24,318
feet in length, more than four and a
half times as long as our mile.
The Dutch, the Danes and the Prus-
sians enjoy a mile that is 18,440 feet
long, three and a half times the length
of ours, and the Swiss got more exer-
cise in walking one of their miles than
we get in walking five miles, for their
mile is 9,153 yards long, while ours is
only 1,760 yards. The Italian mile is
only a few feet longer than ours; the
Roman mile is shorter, while the Tus-
can and the Turkish miles are 150
yards longer. The Swedish mile is six
and a half times, and the Vienna post
mile is four and a half times the
length of the English mile.—Pearson's
Weekly.

THUNDER.

Odd Beliefs That Used to Exist in
Days of Old.

Thunder, just because it is a noise
for which there is no visible cause, has
always excited the imagination of the
unscientific, so it is natural that the
most outrageous superstitions about
storms should date back to the time
when everybody, more or less, was un-
scientific. One old writer explains the
belief of his day that "a storm is said
to follow presently when a company
of hogs run crying home," on the
ground that "a hog is most dull and
of a melancholy nature and so by rea-
son doth foresee the rain that com-
eth." Leonard Digges, in his "Prog-
nostication Everlasting" (1556), men-
tions that "thunder in the morning
signifies wind; about noon, rain, and
in the evening, a great tempest."
The same writer goes on to say,
"Some write (but their ground I see
not) that Sunday's thunder should
bring the death of learned men, judges
and others; Monday's, the death of
women; Tuesday's, plenty of grain;
Wednesday's, bloodshed; Thursday's,
plenty of sheep and corn; Friday's, the
slaughter of a great man and other
horrible murders; Saturday's, a gen-
eral pestilence plague and great dearth."
After this the gay and lightsome man-
ner shown by Lord Northampton to-
ward these grave matters in his "De-
fensative" is most cheering. "It
chameth sometimes," he writes, "to
thunder about that time and season of
the years when swannes hatch their
young, and yet no doubt it is a para-
dox of simple men to think that a
swanne cannot hatch without a crackle
of thunder."—London Chronicle.

Arnold and His Circus.
Matthew Arnold used to travel in
company with Mrs. Arnold, his two
daughters and the agent, whom he ele-
gantely called his "impresario." They
usually had railway passes given to
them, and on several occasions, when
presenting these to the conductor, he
remarked in a condescending tone,
"Oh, the Arnold troop, I suppose!"
"Just as if we were a traveling cir-
cus," said Mr. Arnold, with a hearty
laugh.

The Best Return.
After all, it isn't the way we live or
the work we do that matters, but the
ideal we put into it. Is there any
work too sordid, too prosaic, to yield a
return of beauty?—Ellen Glasgow.

Nothing to Steal.
Minister's Wife—Wake up! There are
burglars in the house, John. Minister:
Well, what of it? Let them find out
their mistake themselves.—Christian
Register.

Don't speak too plainly. If a man
were to set out by calling everything
by its right name, he would be knock-
ed down before he got to the corner of
the street.—Exchange.

CASTORIA.
Bears the
Signature
of *Chas. H. Fletcher*

Never lose an opportunity for relax-
ation from the stress and strain of
your business or profession. Every
draft of laughter, like an air cushion,
eases you over the jolts and the hard
places on life's highway. Laughter is
always healthy. It tends to bring ev-
ery abnormal condition back to the
normal. It is a panacea for heartaches,
for life's bruises. It is a life prolong-
er. People who laugh heartily keep
themselves in physical and mental har-
mony and are likely to live longer than
those who take life too seriously.

**Do not borrow trouble. The interest
is too high.**—Dallas News.

A Tough Chicken.
A New Orleans man has proved that
a chicken can live twenty-three days
without food or water. He makes af-
firmly that when his family moved re-
cently a chicken securely nailed in a
box was in the cellar of the new house,
having been forgotten by the former
tenants. Twenty-three days later the
cook was moved to explore the cellar
and discovered the chicken, emaciated,
but still much alive.

The Insanity.
"I want to get a divorce from my
husband."
The lawyer was interested. "What
are your grounds?" he asked.
"Insanity."
"Was he crazy at the time of the
marriage?"
"Oh, dear, no; I was."

Breaking It Gently.
"How much coal is there, Susan?
How long will it last?"
"Well, ma'am, it will last quite
awhile if you don't have any fires."
"There isn't any left, ma'am."

Don't neglect your cough.
Statistics show that in New York City
alone over 200 people die every week from
consumption.

**And most of these consumptives might
be living now if they had not neglected the
warning cough.**

**You know how quickly Scott's
Emulsion enables you to throw off a
cough or cold.**

HOW LINCOLN WON.

A Bad Looking Legal Case That Was
Saved by Frankness.

The lawyer whose honesty is proved
has the confidence of the judge and
jury. A story of Abraham Lincoln is
an illustration. He was appointed to
defend one charged with murder. The
crime was a brutal one, the evidence
entirely circumstantial, the accused a
stranger. Feeling was high and against
the friendless defendant. On the trial
Lincoln drew from the witnesses full
statements of what they saw and
knew. There was no effort to confuse,
no attempt to place before the jury
the facts other than they were. In the
argument, after calling attention to the
fact that there was no direct testimo-
ny, Lincoln reviewed the circum-
stances and, after conceding that this
and that seemed to point to defend-
ant's guilt, closed by saying that he
had reflected much on the case, and,
while it seemed probable that defend-
ant was guilty, he was not sure and,
looking the jury straight in the face,
said, "Are you?" The defendant was
acquitted, and afterward the real crim-
inal was detected and punished. How
different would have been the conduct
of many lawyers! Some would have
striven to lead the judge into technical
errors with a view to an appeal to a
higher court. Others would have be-
come hoarse in denunciation of wit-
nesses, decrying the lack of positive
testimony and the marvelous virtue of
a reasonable doubt. The simple,
straightforward way of Lincoln, back-
ed by the confidence of the jury, won.
—D. J. Brewer in Atlantic.

A MONKEY'S ROLES.

Defined by Customs Men as a Bird, a
Package and a Dog.

On the travels of a monkey from
Genoa to Heidelberg an amusing fable
might be written. A German gentle-
man brought from southwest Africa a
tiny monkey weighing barely a couple
of pounds. From Tanga to Genoa all
went well with the lilliputian animal.
It was a favorite with every one and
traveled free until Genoa was reached,
when its troubles began.
Brought under the notice of the Geno-
ese custom house authorities, it was
promptly deprived of its identity. It
was no longer an animal; it became a
bird, and as a bird, on which 28 cents
was charged, it was conveyed to the
Swiss frontier, where at a stroke of the
custom house officer's wand it was
transformed into a cat at the increased
assessment of \$1.50 and borne by train
to Zurich.

On its arrival there it ceased as a
cat to exist and became a mere pack-
age, an item of luggage that was con-
veyed to Constantine for the nominal
sum of 10 cents.

Still as luggage, though metamor-
phosed from a package into a hand
bag, it went on its way to Stuttgart,
where a great honor awaited it. It
was on payment of \$2.04 exalted into
a dog, and it was as a dog that it en-
ded its journey at the university town
of Heidelberg.—Stray Stories.

Caution.
"Sister Henderson," said Deacon Hy-
pers, "you should avoid even the ap-
pearance of evil."
"Why, deacon, what do you mean?"
asked Sister Henderson.

"I observe that on your sideboard
you have several old glass decanters
and that each of them is half filled with
what appears to be ardent spirits."
"Well, now, deacon, it isn't anything
of the kind. The bottles look so pretty
on the sideboard that I just filled them
halfway with some floor stain and fur-
niture polish just for appearances."
"That's why I'm cautioning you, sis-
ter," replied the deacon. "Feeling a
trifle weak and faint, I helped myself
to a dose from the big bottle in the
middle."—Life.

Wedding Gifts of Long Ago.
In the list of presents received at the
wedding of the daughter of Mr. Moor
of Losely, in 1567, from M. Balam,
Esq., out of Marshland, in Norfolk, ap-
pear the following: "Cranes 9, Hen-
shawes 5, Curlewes 1, Ducks Mallards
4, Teales 26, Plovers 9 dozen, swannes
9, larks 38 dozen, Bytters 16, Knotts 4
dozen and 4, Styntes 7 dozen, Godwytts
22." It is a formidable list, including
some 850 birds, of which 456 are larks,
and must, one would imagine, have
been something of an embarrassment
to Mr. Moor's daughter.—Country Life.

A Henry Laugh.
Never lose an opportunity for relax-
ation from the stress and strain of
your business or profession. Every
draft of laughter, like an air cushion,
eases you over the jolts and the hard
places on life's highway. Laughter is
always healthy. It tends to bring ev-
ery abnormal condition back to the
normal. It is a panacea for heartaches,
for life's bruises. It is a life prolong-
er. People who laugh heartily keep
themselves in physical and mental har-
mony and are likely to live longer than
those who take life too seriously.

Seven in Human Life.
A writer divides the human life as
follows: At three times seven a man
loses a competent age in the eyes
of the law; at four times seven he is in
full possession of his strength; at five
times seven he is fit for the business of
the world; at six times seven he be-
comes grave and wise if he is ever des-
tined to; at seven times seven he is
in his apogee, and from that time he
begins to decay; at eight times seven
he is in his first climacteric, at nine
times seven he is in his grand climac-
teric, and at ten times seven he has
reached the allotted span of life.

A Tough Chicken.
A New Orleans man has proved that
a chicken can live twenty-three days
without food or water. He makes af-
firmly that when his family moved re-
cently a chicken securely nailed in a
box was in the cellar of the new house,
having been forgotten by the former
tenants. Twenty-three days later the
cook was moved to explore the cellar
and discovered the chicken, emaciated,
but still much alive.

The Insanity.
"I want to get a divorce from my
husband."
The lawyer was interested. "What
are your grounds?" he asked.
"Insanity."
"Was he crazy at the time of the
marriage?"
"Oh, dear, no; I was."

Breaking It Gently.
"How much coal is there, Susan?
How long will it last?"
"Well, ma'am, it will last quite
awhile if you don't have any fires."
"There isn't any left, ma'am."

Don't neglect your cough.

"A GOOD LOOKER."

Appearances Have Much to Do With
Success in Business.

"Send me a good looker. I don't
mean pretty, you know, but one who
knows how to dress—the tailor made
kind who visits the hairdresser and
the manicure. Of course I know it
costs, but we are willing to pay for it."
This was a telephone message received
by a large employment agency from a
business man who required the serv-
ices of a young woman bookkeeper and
general office assistant.
A shabby necktie or soiled linen or a
cheap, well worn hat may cost you
very dear, for it may be a turning
point in some one's mind who has been
thinking of patronizing you. Business
men are keen eyed, very sharp and
often influenced by little things.
Many a worthy youth has been sent
away when applying for a situation
because of some telltale in his dress or
manner which made a bad impression.
Young men may so far emphasize
the matter of dress that their good ap-
pearance is about all there is to them.
At the same time appearances have
much to do with one's advancement,
especially in large cities. In New York
it is almost impossible for young men
to get a start who are obliged to over-
come the handicap of an unfavorable
impression. It seems as though New
Yorkers would forgive anything quick-
er than a slovenly or a poverty stricken
appearance.—Success Magazine.

STREETS IN A BIG STORE.

The Piles of Merchandise Are Num-
bered Like Houses.

In a large wholesale grocery house in
Kansas City the lanes that intersect
the great piles of merchandise have
been named as streets, and the stacks
of boxes, bags and packages have each
been marked with a number, as the
houses upon city streets are numbered.
The other day a member of the firm
gave the following order to a trucker:
"Go over to Easy street, get that
parcel of swells and take them to
Burch S.".
A stranger in the big store would not
have known what that order meant.
The trucker knew.
All canned goods that swell from the
formation of gases inside are called
"swells" in the grocery trade. In this
house all "swells" are kept in a room
upstairs called "parlor S." "Easy
street" is a lane that leads down to
"Burch S." the big room where many
girls work putting up packages.
"Clubber alley" is the lane which
passes through the great stacks of
condensed milk. "Cornucopia lane" goes
through the cornmeal packages and
barrels.
The system of naming the streets
and dividing the different brands of
goods into numbers facilitates the busi-
ness of order filling to the extent that
almost twice the work can be done
now by the same number of order fill-
ers that could be done a few years
ago.—Kansas City Star.

The Free Lance's Paradise.
The literary free lance is bred natu-
rally in New York and thrives in its
atmosphere because the market for his
wares is stable and infinitely varied.
The very life of metropolitan publish-
ing lies in the search for new men and
variety. Publishers spend great sums
upon the winnowing machinery that
thrashes over what comes to their ed-
itors' desks, and no editor in the met-
ropolis grudges the time necessary to
talk with those who call in person and
have ideas good enough to carry them
past his assistants. Publicly the editor-
ial tribe may lament the many hours
spent yearly in this winnowing process.
Yet every experienced editor in New
York has his own story of the stranger,
uncouth, unpromising, unready of
speech, who stole in late one afternoon
and seemed to have almost nothing in
him, yet who afterward became the
prolific scribbler or the great D'Auber.
—J. H. Collins in Atlantic.

What a Jubilee Is.
Some years ago, before Queen Victo-
ria's death and about the time that
the queen's jubilee was to be celebrated,
the following conversation between
two old Scotchwomen was overheard
one day on a street corner in London:
"Can ye tell me, wumman, what is it
they call a jubilee?"
"Well, it's this," said her neighbor.
"When folk has been married twenty-
five years, that's a silver wuddin', and
when they have been married fifty
years that's a golden wuddin', but if
the man's dead then it's a jubilee."
—Harper's Weekly.

A Henry Laugh.
Never lose an opportunity for relax-
ation from the stress and strain of
your business or profession. Every
draft of laughter, like an air cushion,
eases you over the jolts and the hard
places on life's highway. Laughter is
always healthy. It tends to bring ev-
ery abnormal condition back to the
normal. It is a panacea for heartaches,
for life's bruises. It is a life prolong-
er. People who laugh heartily keep
themselves in physical and mental har-
mony and are likely to live longer than
those who take life too seriously.

Seven in Human Life.
A writer divides the human life as
follows: At three times seven a man
loses a competent age in the eyes
of the law; at four times seven he is in
full possession of his strength; at five
times seven he is fit for the business of
the world; at six times seven he be-
comes grave and wise if he is ever des-
tined to; at seven times seven he is
in his apogee, and from that time he
begins to decay; at eight times seven
he is in his first climacteric, at nine
times seven he is in his grand climac-
teric, and at ten times seven he has
reached the allotted span of life.

A Tough Chicken.
A New Orleans man has proved that
a chicken can live twenty-three days
without food or water. He makes af-
firmly that when his family moved re-
cently a chicken securely nailed in a
box was in the cellar of the new house,
having been forgotten by the former
tenants. Twenty-three days later the

Ledger & Chicago Inter-Ocean, \$2.50

Washington Letter.

Washington, December 28, 1906.

The event which overshadowed
everything else at the Capitol last
week was the case of the Nergo battal-
ion discharged by order of the presi-
dent. This was in no way due to the
fact that the discharged men are
colored. The race question is not in
evidence as far as the new aspect of
the case concerned. This new aspect
is the result of the remarkable speech
of senator Foraker in the senate, on
his resolution authorizing an investi-
gation by the committee on military
affairs. His remarks so far—for he
will speak again on the subject—have
excited national attention, not only
because of the great legal talent dis-
played, but on account of the marvel-
ously lucid explanation of the present
status of the case. The senator's plea
is simply for a square deal with no
favor or prejudice against any in-
dividual. But while this is his
motive, the effect of the facts adduced
by him has been to very successfully
attack the president's fairness and
impartiality in the discharge of the
troops. That he had not, as he
claimed, undisputed evidence of the
guilt of the troops, the president at
once tacitly acknowledged after
senator Foraker's speech by dispatch-
ing to Brownsville an official capable
of weighing evidence to secure fresh
data by which to prop up his hasty
decision. And further rash haste on
the part of the president was made evi-
dent when it was publicly reported—
and not as far as known denied—that
he promised to veto any bill restoring
the colored troops to the service, and
stated if the bill is passed over his
head that he will not obey the law.
This threat, however, has excited only
passing interest for the people seem
to feel that they are competent to see
that no law shall be contemptuously
set aside at the whim of any one,
however high; and it is called to
mind that the president has had noth-
ing further to say on

Official Paper of Amador co.

FRIDAY, JAN. 11, 1907.

Novel Freeze-Out.

By a freeze-out is also meant the majority management ability to accumulate a large and unheard-of surplus, instead of paying it out to the stockholders in dividends. The Ledger knows as well as we do that stockholders become disgusted and sold their Argonaut stock while this unheard-of surplus was being accumulated, because they could get no dividends. The Record admits the mine was not closed to force out small stockholders, nor was assessments levied for that purpose, but the accumulating surplus plan produced the same result.—Record.

The additional definition of a "freeze-out," given above will strike the ordinary reader as a novelty. It is an invention in mining phraseology—a definition that will cause a broad smile to outcrop the features of mine operators. Instead of "freeze-out," we should be inclined to designate the accumulation of a "large surplus" in the company's treasury, as a "freeze-in" game. Why the fact that a mining company has a big balance on the credit side of its ledger should lead stockholders to sell their interests at a sacrifice is a problem in finance that we cannot fathom. Such a surplus, we would more reasonably conclude, would cause them to hold on, because their shares would be growing in value in proportion to the accumulation of money in the company's treasury.

We hardly think that a board of directors would dream of trying to drive stockholders to sacrifice their holdings by piling up money in the treasury for their benefit. We will venture to say the experiment has never been tried in the management of the Argonaut property, nor in the management of any other mine in Amador county that we have knowledge of. More than this, to rail at a mining management for pursuing the prudent policy of keeping a good stiff balance in its treasury to meet any contingency that may arise, is far from commendable. There are good mines in this county idle for many years, that would have been working and producing bullion today if the conservative management of keeping a good surplus on hand, had been followed. They are silent because every dollar was grabbed up by the stockholders in the shape of dividends, and when money was needed for development work it could not be had without assessment, and the mine closed rather than rely upon the stock.

The keeping of a stiff reserve fund is regarded as an evidence of good management, and a protection to the stockholders, instead of a cinch game. In condemning this policy, the most successful and judicious mining operators of Amador county, in the past or present, must fall within the proscription. No practical mining man or business man conversant with the uncertainties of mining, will ever complain on account of a surplus in the treasury. Complaints in plenty have been heard because of the lack of surplus, when a surplus might easily have been created.

The surplus in the Argonaut treasury was accumulated pending the outcome of the litigation with the Kennedy. It was nothing more than a plain business proposition. The workings had reached a point where further prosecution meant an invasion of the territory in dispute. Above that point the ore bodies had been extracted. The suit itself was a costly affair, and a round sum in the treasury was a good thing to have. If the case went against them it would be needed. If the suit was decided in their favor—as it was—it would also be needed, for the reason that before any more pay-ore could be mined, expensive sinking operations would be necessary, involving not only heavy outlay, but extending over a protracted period. Without a nest-egg thus provided an assessment of freeze-out dimensions would doubtless have become imperative. After work was resumed, upon the termination of the litigation, the treasury surplus had shrunk to pretty slim proportions before the company was placed on a dividend paying footing again, thus showing conclusively the wisdom of the accumulation of a reserve fund under the peculiar conditions confronting the management.

The legislature convened last Monday. The address of governor Pardee is a strong and manly statement. It bears all the characteristics of the ex-governor. Governor Gillett's inaugural is mapped on the same lines as his predecessor, although much shorter, and less incisive and emphatic in tone. The lawmakers have started out to beat all records for grafting, with \$25 per day patronage for each senator, and \$13 for each assemblyman, including the democrats, who were perfectly willing to take a hand in the footing game.

Rapid recovery by keeping the bowels regular with Ayer's Pills.

New Administration.

The county officers entered upon the new term last Monday, at 12 noon. There was no palaver made on the occasion. The old officers retired, and the new officers stepped in. There were few changes in the personnel of county officers. T. K. Norman as sheriff and tax collector, retired in favor of U. S. Gregory, who has engaged as his deputy Will Connors of Sutter Creek. It is the intention to transact the business with one deputy, who will do the office work and attend to the jail. Sheriff Gregory will attend to the outside work.

C. L. Culbert as clerk and auditor, is succeeded by his former deputy, J. R. Huberty, who has installed as deputy Lawrence Newmann, the second son of Mr Newman of the Union Livestock Stable.

C. E. Jarvis has assumed the duties of assessor in place of John Marchant. He has signified his intention of appointing Geo. A. Gordon as his deputy, which is a very good selection. No one better qualified or more attentive to official duties could be found that the deputy named.

W. H. Greenhalgh, republican, took charge of the office of School Superintendent. It is needless to say that he possesses all the requisites of a popular and faithful head of educational interests of Amador county, and he enters upon the work with a firm resolve to give the people the best service of which he is capable. Geo. A. Gordon, who surrenders in his favor, has held the office eight years. It is due to him to say that he has made the most efficient, painstaking, and devoted official the county has ever had in that position. He is a thorough master of all the duties and laws pertaining to the school system. He retires in the consciousness that he has done his full duty and with the confidence of teachers and parents unimpaired.

H. E. Potter, republican, of Plymouth, succeeds G. M. Huberty, democrat as coronor and public administrator. Whether he will move to the county seat or not is yet undecided. He will no doubt make a good, faithful public servant.

It is safe to say that not one-tenth of the voters at the recent election were aware that among the constitutional amendments submitted to them was one, which under the ruling of attorney general, U. S. Webb, raises the salary of every superior judge in the state. And this particular amendment passed muster at the ballot box by a very slender margin. It takes effect, so the state attorney says, from its adoption. Under this change of the fundamental law, the salary of the superior judge of Amador county is boosted to the tune of \$500 per year, making \$1000, instead of \$500, as formerly. This is the second time that the compensation of superior judge of this county has been uplifted to a like extent. It is true that one-half of the increased salary is paid by the state. That, however, cuts no figure. Amador county has to pay its proportion in state taxes for the increase of judicial compensation in all other counties, so that practically it amounts to precisely the same as if the total \$500 raise was borne by the taxpayers of this county alone.

Matches.
 "Who are those young people in that box?" asked the man in the parquet.
 "There's Elsie Hingore and her fiancé, and Mazie Riech and hers, and Belle Browne and hers. They're all to be married next month."
 "Indeed! Quite a box of matches, eh?"—Philadelphia Press.

A Vegetable Roast.
 Boy—Ma, I thought you said the Specks were vegetarians. Ma—So I did; they are. Boy—Well, I heard Mr. Specks tell pop that when he got home late the other night Mr. Specks had a roast waiting for him.

Not In His Line.
 Lawyer—You should learn shorthand and typewriting, Billy. The Office Boy—Aw gwan! I never cared for dowers an' candy!—Puck.

DOCUMENTS RECORDED.

(The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.)

Deeds—Mrs S. L. Hall et al to J. H. Heffren et ux, lot 4 block 14, lone, \$10.

Amelia L. Kline to Maria S. Hale, Excelsior quartz mine near Plymouth, \$10.

P. G. Galpin et al to Henry Malloch, mineral land in 8 and 17-6-11 and other assigned interests, \$10.

James Ioman et ux to Charles W. Randall, an undivided 3-10 interest in all ore taken from land in 8 and 17-6-11, \$10.

John H. W. Ehlers et ux to Peter J. Cuneo, 160 acres in 15-6-12, 30 acres in 10-12-12, lots 3, 6, 9, 10, 11, 13 and 21, in Clinton; also ditches and water rights, \$1000.

W. W. Willis to Henry Malloch, 200 acres in 8 and 17-6-11, \$10.

P. S. Glascock et ux to Jacob Newman, 31½ acres in 31-6-10, \$10.

Proof of Labor—B. W. Pitts on the Mountain Queen and Mountain King claims, Volcano district.

G. H. Bragg on Francis Eleanor claim, Volcano district.

G. H. Bragg on Old Brynes claim, Volcano district.

G. H. Bragg on Anna Deroy claim No. 1, Volcano district.

G. H. Bragg on Anna Deroy claim No. 2, Volcano district.

W. L. Morrow on Grainger tale claim, Jackson district.

Wm. L. Morrow on Twentieth Century claim, Jackson district.

M. E. Muldoon on New Year and Mountain View quartz claims, Jackson district.

William Seoble on Champion quartz claim, Jackson district.

C. H. Shields et al on May Ella quartz claim, Plymouth district.

Frank Uhlinger on Buckeye placer claim, Oleta district.

Locations—Charles Hagburg locates the Somerset quartz claim.

Thos Boyson locates a millsite for the Nucleus quartz mine in 7-10.

Claude Wilson locates the Red Bank placer claim in Oleta district.

Satisfaction of Mortgage—Biggie Cuneo to J. H. W. Ehlers et ux.

Patent—U. S. to Claude Wilson, 160 acres in 32-8-12 as agricultural land.

Notice to Purchase—J. L. Cox gives notice that he will purchase an undivided one-half interest in stock of firm of Malatesta & Co., Sutter Creek, on January 12, 1907.

Assignment of Agreement—J. M. Parson to the Eureka Diamond Drill M. Co., 25,000 shares of common capital stock of said corporation.

Certificate of Redemption—Hugh Casey on house and lot in Plymouth, taxes of 1897.

Lis Pendens—Biggie Cuneo vs. Calimeri Canonica; foreclosure of mortgage.

OLETA.

The weather is somewhat cold, as we are having a snowstorm at the present writing.

School starts again today with Miss Margaret Schilling as teacher, after a vacation over the holidays.

Henry Votaw of Oakland was a visitor in and around Oleta New Year's.

Rumor has it that N. Schilling and M. Deaver are going to San Francisco on the look out for a job for the winter.

Henry Brown of Jackson, spent a week with his aunt and family, Mrs H. Bradigan.

Mrs Clara Baird has returned to her former duty, as dressmaker at Berkeley.

Miss Amy Clark of Quartz Mt., was a visitor to her aunt, Mrs A. L. Taylor last week.

John Bradigan spent a few days of this week with D. H. Brown's folks, at Stony Creek.

Miss Margaret Schilling served some of her friends New Year's evening with a grand turkey supper. The evening was spent in a jolly sort of way, and all departed wishing New Year's came twice a year instead of once.

Observer.

BORN.

AMADOR.

Mr Hoadley, the school teacher, returned from his vacation Saturday night.

Miss Ida Hardy left Monday morning, to continue her studies at the Stockton Business College.

Mrs Nethercote and her son Melvin, returned to their home in Oakland Sunday morning.

Salem Bonaue has been on the sick list for the past week.

Miss Riley of Sutter Creek, spent a few days with her sister, Mrs Kerr.

The latest "catch" is a delightful cold.

Miss McLaughlin was a passenger on the Jackson stage Sunday morning.

She has been spending the holidays a her home in Shakeridge, and resumed her duties Monday morning.

Miss Blanche Martin left Monday morning for San Francisco, where she intends to attend school. A farewell party was tendered her at the parsonage Friday night. It was carried out on the plan of a musical, and all enjoyed themselves immensely, though the thought of Blanche leaving rather saddened the joy.

They all wish her success. The church presented her with a bracelet as a token of remembrance, and her Sunday school class a china cup and saucer.

Inquire.

AUKUM.

The second oldest daughter of Chas. S. Bell, Bertha E. Bell, was married to Fred Schroeder, familiarly known as Pet, at Jackson on Thursday last by Judge Rust.

At the present writing there is 4 inches of snow on the ground, with indications for more as clouds hang dense and threatening around.

Mrs Stumpf is awaiting an opportunity to move to Indian Diggins, where her husband is engaged in mining, but the inclement weather coupled with almost impassable roads has prevented her so far from so doing.

Ralph M. Naughton was seen here on Saturday last.

Bob Carter is now at his father's, resting for a while as he has been very busy for a long time. His brother, Willis is in Goldroads, Arizona, where he is working in the mine.

Owing to high water on Friday last the Aukum stage did not run on that day. The old rotten bridge which belongs to Amador and El Dorado counties, that spans the South Fork of the Cosumnes between Aukum and Plymouth, has been condemned and is too rotten to risk crossing, and I suppose the supervisors, like the "Arkansas traveller" think it is raining now, and when the freshets are over the people don't need it.

Giddy Diek.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably endorse it. Children like it because the taste is so pleasant. Contains honey and tar. It is the original laxative cough syrup and is unrivaled for the relief of croup. Drives the cold out through the bowels. Conforms to the National Pure Food and Drug Law. Sold by F. W. Ruhser.

Notice for Publication.

Department of the Interior, Land Office at Sacramento, California, Jan. 7, 1907.

Notice is hereby given that John Mehrens, of Clements, California, has filed notice of his intention to make final five year proof of support of his claim, viz: Homestead Entry No. 6362, made June 18, 1900, for the Lot 4 & S ½ of N W ¼, Sec. 3, Lot 1, Section 4, Township 8 N., Range 15 E., M. D. A., and that said proof will be made before the U. S. Commissioner of Amador county, California, at his office in Jackson, California, on Wednesday Feb. 20, 1907. He names the following witnesses to prove his continuous residence upon, and cultivation of the land, viz: George Ellis of Ritehey, California. Edward Grelich of Drytown, Calif. John Nash of Jackson, California. D. C. Gibson of Clements, Calif.

JOHN E. ARMSTRONG, Register.

Baukrupcty Notice.

In the United States District Court for the Northern District of California.

In the matter of Antone Katto, Bankrupt.

Let the creditors of the above-named bankrupt:

Take notice that the above-named bankrupt has filed his petition for discharge from all his debts, in accordance with the provisions of the act of Congress of March 3, 1878, to establish a uniform system of bankruptcy throughout the United States, approved July 1, 1890, and the acts amendatory thereof; and that SATURDAY, the 10th day of JANUARY, 1907, at the hour of 10 o'clock a. m. of said day, has been set as the time for hearing said application, before the Hon. J. J. Delhaven, Judge of the District Court of the United States, in and for the Northern District Court at California, at the Court room of said Court, in the United State Post Office and Court House building at the city and county of San Francisco, State of California, and all creditors of said bankrupt are ordered to show cause, if any they have, why the said discharge should not be granted.

Dated December 31, 1906.

JOHN E. ARMSTRONG, Referee in Bankruptcy.

Notice of Forfeiture.

To H. F. Butheneth (his heirs or assigns):—You are hereby notified that I have expended two hundred dollars (\$200), in labor and improvements on the Mountain Queen and Mountain King quartz mines, situated in Nigger Gulch, Volcano mining district, Amador county, State of California.

Notices of the location of said mines are recorded in Vol. 6, of Quartz Records, pages 135 and 195 of Amador county, State of California, in order to hold said mines under the provisions of Section 2324 Revised Statutes of the United States, being the amount required to hold the same for the year ending December 31, 1906, and if within ninety (90) days from the service of this notice, or within ninety (90) days after this notice by publication) you fail or refuse to contribute your proportion expenditure as co-owner, your interest in said claims will become the property of the subscriber under said Section 2324.

B. W. Pitts.

Notice To Taxpayers.

Office of the Tax Collector
 County of Amador, State of California.

NOTICE IS HEREBY GIVEN TO THE taxpayers of Amador county, that I, T. E. NORMAN, Tax Collector of Amador county, did on the 8th day of October, 1906, receive from the County Auditor of Amador county the original assessment books for the year 1906, containing a list of the persons assessed for real and personal property, and the amount of State and County taxes due thereon for said year.

That said taxes are now due and payable to me at my office in the Court House, in the town of Jackson, county of Amador, State of California.

That the taxes on all personal property secured by real property, and one half of the taxes on all real property were due and payable on the second Monday of October, and are delinquent on the last Monday in November next thereafter, at 6 o'clock p. m., and that unless paid prior thereto, fifteen per cent will be added to the amount thereof, and if said one half be not paid before the last Monday in April next, at 6 o'clock p. m., an additional five per cent will be added thereto.

That all taxes may be paid at the time the first Monday in January next, and will be delinquent on the last Monday in April next thereafter, at 6 o'clock p. m., and that unless paid prior thereto, five per cent will be added to the amount thereof.

That all taxes may be paid at the time the first Monday in January next, and will be delinquent on the last Monday in April next thereafter, at 6 o'clock p. m., and that unless paid prior thereto, five per cent will be added to the amount thereof.

That all taxes may be paid at the time the first Monday in January next, and will be delinquent on the last Monday in April next thereafter, at 6 o'clock p. m., and that unless paid prior thereto, five per cent will be added to the amount thereof.

That all taxes may be paid at the time the first Monday in January next, and will be delinquent on the last Monday in April next thereafter, at 6 o'clock p. m., and that unless paid prior thereto, five per cent will be added to the amount thereof.

That all taxes may be paid at the time the first Monday in January next, and will be delinquent on the last Monday in April next thereafter, at 6 o'clock p. m., and that unless paid prior thereto, five per cent will be added to the amount thereof.

There are nine prisoners confined in the county jail, four on felony charges and the others serving out misdemeanor sentences.

The preliminary examination of G. W. Kirby on a charge of assault to commit murder, is being held in lone to-day.

Two inches of snow fell in Jackson Sunday afternoon. The foothills were clothed in the white mantle until Monday noon. The rainfall for the week has been 1.11 inches, making the total for the season 18.76, against 4.49 for the corresponding period last season.

A stranger applied at the sheriff's office during the recent storm saying that he was a deserter from the army, and wished to give himself up. A few questions were put to him, and it was brought out that he deserted in the Cui-de-Alene country some nine or ten years ago. The officials have to be on the lookout for jail breaks, but here was a case of a man trying to beat his way into jail. Evidently he was in quest of a comfortable bed and board during the inclement weather. After spending a night at the expense of the county, he was told to move on, which he did. He gave his name as Owen Deverli.

Ernest and Roma Spagnoli left Sunday morning for San Francisco, the first named to continue his studies in the law college, and the latter to attend high school.

CITY TRUSTEES.

An adjourned meeting of the board of trustees was held last evening; present W. Lam, chairman pro tem; W. Penry and H. Leam, trustees. Minutes of last meeting were read and approved.

Trustee Lam reported the completion of the Broadway drainage sewer in a very satisfactory manner, and also reported that considerable work in that line was still needed.

Regular monthly reports of clerk and tax collector were read and approved.

Annual report of the clerk was read and approved.

Report of treasurer was also read and approved.

The city marshal reported various complaints of nuisances, as reported to him.

Petition of residents of north Main street was read, in regard to a new sidewalk, and same was referred to committee on streets and sidewalks. Adjourned until Jan. 17.

The Deer Case Falls.

Game Warden Fairfield was up at Volcano to prosecute the case of people vs. Jos. Garibaldi, for alleged violation of the game law in killing a deer out of season. The matter was heard yesterday before Justice Robinson and a jury. The game warden conducted the prosecution, and R. C. Bole appeared for the defendant. The jury was out about five minutes, and returned a verdict of acquittal. We understand one of the fatal defects of the prosecution was that the hide of the animal alleged to have been slaughtered out of season was without distinguishing marks, and could not be identified.

The county has purchased the calculating machine, which has been on trial in the clerk's and tax collector's office for some time. It is a very handy machine, absolutely correct, and saves a whole lot of time and worry in the adding of figures. Such machines are in general use in public offices throughout the county, also in banks and other places where quickness and correctness in figures is an important factor. The price paid was \$375. It is worth the money as a labor saver.

In our advertising columns will be found an ad of the Paragon, 115 Van Ness Avenue, San Francisco. This establishment is strongly recommended for square dealing, and business-like methods. All who have occasion to send to the outside for goods may rest assured that they will be fairly treated when sending their orders to this house.

Wednesday afternoon the school children in Miss McLaughlin's room, one of the upper rooms of the new addition—were startled by a shot striking against the south window. It failed to break the glass. Immediately thereafter another missile struck the window, this time shivering the glass, which was scattered over the children in the class. The ball fell on one of the children, doing no harm. It caused quite a scare, however. An investigation followed, but failed to discover the identity of the careless shooter. The shot evidently came from an air gun or sling shot in the hands of a child, as no report was heard. The city marshal is looking into the matter. He has the bullet, and is of the opinion that it was fired from a sling shot by a child.

A rumor was current on the streets that A. H. Kuhlman, the contractor and builder, who left here about a year ago, and has been operating in Nevada, had died of pneumonia at Rhyolite, Nev. We cannot trace the report of his death to any definite source. Word had been received here that he was seriously ill of pneumonia. His wife is in California. He is a member of the Workmen, and also of the Odd Fellows lodges here.

Jas E. Wylie, the new principal of the Jackson school, arrived here from Glenn county, Saturday evening, and assumed the duties of his responsible position on Monday. He is a man of middle age, and has had considerable experience in teaching. At the last election he ran for school superintendent on the republican ticket in Glenn county, a democratic stronghold. He resigned as principal in one of the districts there, in order to make the campaign. He was defeated, and hence, when the canvass was over he was out of a position, and that is the way he came to be engaged in Jackson. So far the children and teachers are pleased with the new principal, and it is fully expected that he will give satisfaction. One part in his favor is that he has taught several successive terms in a number of instances in other counties.

DeWitt's Little Early Risers
The famous little pills.

Del Monte Goldfield Company.

The Del Monte Goldfield Mining and Leasing Company has been incorporated under the laws of Arizona, with a capital stock of \$1,500,000, divided into that number of shares at \$1 each. The promoters of this venture are the directors of the old Del Monte Company, who for the past six years have operated the Del Monte mine in Calaveras county. They have quit operation in Calaveras, and transferred their energies to the more inviting field of Goldfield, Nevada—a camp which in many respects is the most wonderful gold mining region the world has ever seen. The directors are Geo. I. Wright, general manager and president; F. A. Voorheis, vice president; Jas. J. Wright, secretary and treasurer; Richard Webb, Geo. F. Dornan, all of Jackson, and D. L. Collom, of Meadville, Pa., J. P. H. Cunningham, Newcastle, Pa., F. P. Curtze, Erie, Pa. and Homer A. Hine, Akron, Ohio. The temporary place of business is Jackson, but eventually it is probable the place of business will be removed to Goldfield. The company has leased a claim of six acres in the very heart of the gold producing section. The lease runs for two years. The property is owned by Claude M. Smith and others. Smith five years ago was employed as outside man on the Amador Ledger, and has taught school in several places in this county. After leaving here he drifted to the new mining camps of Nevada, was elected mining recorder of Goldfield, when that district was organized, and was enabled to take up a number of the most promising claims. He has amassed a fortune in mines. He still holds the position of recorder, and R. I. Kerr, who last month quit the clerkship at the Kennedy to go to Goldfield, is now a deputy mining recorder in Goldfield. Mr. Kerr is also interested with several others in this neighborhood in a lease acquired from Claude Smith. They have pushed development work to the depth of 170 feet, and are said to be in rich sulphide ore. Geo. I. Wright left yesterday morning for Goldfield to start operations on the Del Monte. He will meet Claude Smith at Reno, and thence the two will go on to the camp. Mr. Wright has already sold from 30,000 to 40,000 shares of treasury stock, to furnish development funds. There are one million shares for sale at 25 cents per share. He expects to place stock enough for development purposes on reaching Goldfield. Should he be disappointed in this he will likely take a trip east to dispose of enough shares to furnish money for prospecting. He is a careful and conscientious manager. Several of the miners who worked for him in the old Del Monte have offered their services in the new undertaking, and will take their pay in stock, showing the confidence they have in his integrity. The Ledger trusts that the new Del Monte will more than make up for the discouragements and failures that marked the operations in Calaveras county.

Nearly every person who is subject to attacks from the stomach suffers from a morbid dread of a dietetic treatment for relief, that is three-fourths starvation, and one-fourth toast and milk. On the other hand you can eat as you please and digest the food by the aid of a good digestant, thus giving the tired stomach equally as much rest. Eat what you please and take a little Kodol for indigestion after your meals. It digests what you eat. Sold by F. W. Ruhser.

Caminetti as a Time Chaser.

Caminetti has long been known as a politician of the whirlwind order. This reputation has been squarely and honestly earned. He may be somewhat slow in some things, but this feature has never bothered him much in politics. He seems to take delight in being on the "go" at breakneck speed, and doing things that the ordinary mind would deem impossible. This characteristic was strikingly illustrated in his movements this week. Caminetti was elected state senator of this district at the last election by an overwhelming majority. He was required to be at the capitol in Sacramento at the assembling of the legislature last Monday at 10 o'clock in the morning. To be there on time it was necessary, going by the usual route by way of Lone and Galt, to start Sunday, and reach Sacramento the same afternoon. Cam. didn't go that day, however. He didn't believe in getting a move on until the last "toot." Now the average man would have stayed over till the next day, arriving in the capital city two or three hours after the roll call, but that would not have mattered materially, especially as Cam. belongs to the "lonely few" elected on the democratic ticket. Caminetti did not propose to get left in that way, however. He got up Monday morning before the rooster, and roused up the stable keeper in Newman's livery stable, secured a buggy, also a driver in the person of W. Chinn, and at 3 o'clock in the morning, in the teeth of the storm and a cold snap of unusual severity, started for Lathrop, a distance of 18 miles. There he caught the Placerville train bound for Sacramento, and succeeded in reaching the abode of the lawmakers in ample time to answer the roll call. That feat was destined without the slightest mishap. The return trip of the driver and buggy to Jackson was not so fortunate. A collision with another team was an incident of the home trip, and the buggy got back to its quarters considerably battered up by the experience. The driver returned safe and sound. The wagonmaster is patching up the damaged vehicle.

FOR SALE—Two story business building on east side of Main street, Jackson, known as the Koch building. Pays 12 per cent net on investment, price \$200, will take \$1000 down and mortgage on balance. C. Koch, 727 L street, Sacramento, Cal.

Board of Supervisors.

The board met January 7, 1907; all members present. Minutes of previous meeting read and approved.

In the matter of a bridge at Child's ford, S. W. Bright appeared before the board and asked that the proposed bridge be built. Communication from F. E. Quail, a civil engineer, in regard to the matter was read. The board assured C. Childs that if the title to the roadway leading over land of San Joaquin county to the proposed bridge could be legally vested in this county, the board would favor the construction of said bridge, and agree to pay one-fourth the cost of same as per contract, plans and specifications that may hereafter be adopted.

Salary fund—John Strohm, W M

Amick, A Grillo, D A Fraser and L Burke, \$25 each as road commissioners.

Application of T K Norman for 15 days' credit for John Solari was granted.

Petition of W A Carter and others, for a bridge across the Cosumnes river, was read, and the clerk was instructed to write the clerk of El Dorado county in regard to same.

Applications for liquor licenses were granted to Cavanaugh & Petrovich, B Zimmerman, J L Cox, J J Kerner and S M Sharp.

Application of Barney Bracco to sell liquor at Bunker Hill was read. W G Snyder appeared for petitioner, and T S Tuttle in opposition thereto. Petition denied by the following vote: Ayes, Grillo and Strohm: noes, Burke, Amick and Fraser.

On application of W L Rose for a jail at Sutter Creek, supervisor Fraser was empowered to have a stone building erected at a cost not to exceed \$239.

Quarterly report of auditor and treasurer, report of county physician, also of license collector were approved.

Criminal returns of Jas McCauley, A Goldner and W L Rose were approved.

On motion of L Burke, W M Amick was re-elected chairman of the board for the ensuing term.

W G Snyder, R C Bole and A Caminetti were appointed as law library trustees for the year 1907.

The following sums were allowed monthly for the support of half-orphan children: J Picetti \$5, E Bawden \$18.75, J Picatti \$5, R Lagomarsino \$24, E Schoendorf \$6.25, M Petty \$12.50, Ferrari \$24, G Millman \$5, Della Joyce \$6.25, Ida Tonzi \$6.25, Ella Greve \$12.50, Mrs H Kupfer \$6.25, Isola Marriotti \$12.50, A Hodges \$5, Mrs L Hyner \$18.75, L Liddicoat \$12.50, M Levazzo \$12.50.

In compliance with order of the superior court, 200 trial jurors and 30 grand jurors were selected for the ensuing year.

I W Heile and J Ashmead were granted an allowance of \$6 each per month until further notice, out of hospital fund.

The salary of W Going as janitor was raised from \$60 to \$70 per month. Also the salary of F B LeMoine, as hospital superintendent, was increased from \$45 to \$70 per month.

By a unanimous vote the adding machine of Burroughs of Detroit, was ordered purchased at \$375.

Warrants were cancelled on the various funds as follows:

School fund 87216.17
Current expense 1450.11
Hospital 623.31
Salary 2311.64
Road fund 2067.30
General road 144.75
Bridge 1968.31
Lone High School 1545.00
Board adjourned until January 19.
When the cold winds dry and crack the skin a box of salve can save much discomfort. In buying salve look for the name on the box to avoid any imitations, and be sure you get the original DeWitt's Witch Hazel Salve. Sold by F. W. Ruhser.

Clear up the complexion, cleanse the liver and tone the system. You can best do this by a dose or two of DeWitt's Little Early Risers. Safe, reliable little pills with a reputation. The pills that everyone knows. Recommended by F. W. Ruhser.

U. S. Gregory Sells His Business.

The variety store on Main street owned by U. S. Gregory, now sheriff, has been sold to Julius Piccardo and George Vela. The new proprietors will take charge soon. Next Monday an inventory of the stock will be taken, and not until that is completed with the amount paid for the same be known. We understand the purchasers have the first right of buying the store building if the owner decides to sell. The business is a good one and we have no doubt the young men who have entered into partnership to run the same will score a success. Both are energetic, accommodating and possessed of managerial ability. Charles Freeman, who has been employed in the store, will remain until the new owners become thoroughly posted in all the details of the business.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. H. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature

Dr. H. H. Fletcher
The Kind You Have Always Bought
In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 N. MURRAY STREET, NEW YORK CITY.

They Stand Alone.

Standing out in bold relief, all alone, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, Dr. Pierce's Favorite Prescription, for weak, over-worked, debilitated, nervous, run-down, paler-skinned women, Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofula and skin affections.

Each bottle of the above medicines bears upon its wrapper a full and complete list in full list of ingredients composing it—printed in plain English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their purity. They cannot be classed as patent nor secret medicines for they are neither—being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines, but for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts and the roots of native American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. E. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as strictly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are little, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

A PATERNAL CRITICISM.

Sir Henry Irving's Comment on His Son's Early Hamlet.

H. B. Irving, son of Sir Henry Irving, was not educated primarily for the stage. Studying for the profession of barrister, while he was still in college he took part in amateur theatricals. An amusing story is told of one of his earlier interpretations of the difficult role of Hamlet. On this particular and early occasion, however, Sir Henry was "out in front," and after the performance several, including his son, crowded about him for an expression of opinion.

"What do you think of Smith as Polonius?" asked one.

"Good, very good," murmured Sir Henry, "his name, kindly, very good."

"And Miss Blanche as Ophelia?"

"Good, very good," again murmured Sir Henry.

"And Jones as the king?"

"Good, very good," repeated Sir Henry.

"And Thomas as Horatio?"

"Good, very good," came the answer. So the entire cast was gone through with the exception of the principal character, and each received the same precise, neat criticism, "good, very good." Then there was a slight pause, an awkward pause, after which the son, who had been waiting eagerly and anxiously for his father's opinion about his acting, managed to pluck up enough courage to stammer, "But, father—what did you think of—the rest of the cast?"

Sir Henry looked blandly at his son and then remarked dryly, "Are you sure that you want to be an actor, my son?"—Bohemian Magazine.

Wonderful Monastery.

At Solovetsk, in the Russian government of Archangel, is the most remarkable monastery in the world. The monastery of Solovetsk is inclosed on every side by a wall of granite boulders which measures nearly a mile in circumference. The monastery itself is very strongly fortified, being supported by round and square towers about thirty feet in height, with walls twenty feet in thickness. The monastery consists in reality of six churches, which are completely filled with statues of all kinds and precious stones. Upon the walls and the towers surrounding these churches are mounted huge guns, which in the time of the Crimean war were directed against the British White sea squadron.

No Need For a Lender.

The society-reporters always speak of a bride being "led to the altar," just as though a bride could not find her own way there—blindfolded. —Philadelphia Record.

THE GOLDEN FLEECE.

Most Highly Prized of the Surviving Orders of Chivalry.

Of all the orders of mediaeval chivalry which have survived the shock of successive revolutions on the continent of Europe since the great cataclysm of 1789 that of the Golden Fleece is perhaps the most distinguished and the most highly coveted by personages of royal birth or of illustrious patrician lineage.

The badge of the order is a figure of a sheep in embossed gold suspended from a heavy chain of gold. The full robes consist of a long mantle of crimson velvet cut in the fashion of a sacerdotal cope, richly embroidered at the borders with emblematic devices of stars, half moons and fleeces of gold and lined with white satin, with a doublet and hose of crimson damask.

The full robes also comprise a "chapron," or hood, with a long, flowing streamer of black satin, but this headgear has in modern times been generally dispensed with.

Originally the robes of the order, which was founded in 1429 by Philip the Good, duke of Burgundy, were of crimson cloth lined with white lamb's wool, and this circumstance has somewhat strengthened the theory that the Good Fleece was instituted by Philip the Good in grateful recognition of the immense treasures which the Duke of Burgundy had acquired from the wool of the flocks reared on his vast estates in Flanders. Be it as it may, the woolen costume was changed in 1473 at a chapter held in Valenciennes for the more costly materials of velvet, taffeta, damask and golden embroidery.—London Telegraph.

FALSE MIRRORS.

Many Varieties Are Made For Special Business Purposes.

"It is not enough to make true mirrors," the dealer said. "If that were all, ours would be indeed a simple business."

"Dressmakers and milliners require mirrors of all sorts. They need, for example, a mirror that makes one look taller and thinner. When they dress a fat, short patron in one of their new hats or suits they lead her to this mirror, and she is so surprised and pleased with the change for the better in her looks that she straight off she buys."

"For massagers I make a mirror that, like a retouched photograph, hides blemishes, wrinkles, scars. The massager takes the wrinkled face of some rich old woman, steams it, thumps it, pinches it and smacks it for an hour and then holds up to it the mirror that gives a blurred, bluish hazy reflection. The woman thinks her wrinkles are gone and is happy till she gets home to her own true mirror."

"Another I make some twenty varieties of for saloons, restaurants and saleswomen in millinery and dressmaking establishments can double and quadruple their business if they are quick and deft in their selection of the mirror that flatters each patron best."—Philadelphia Bulletin.

Housekeeping In Japan.

I never could regard housecleaning seriously in Japan, where the walls can be put aside by one hand, where there is no particular furniture to worry one and where even the matting can be laid and lifted without tacks or nails. But the Japanese housekeepers of my acquaintance rather resented my light attitude, assuring me, quite after the manner of housekeepers all over the world, that it is all very hard and requires much work—oh, very much work indeed. In order to justify myself to one housekeeper I drew a comparison of her own difficulties and those of an American woman, but the American picture seemed to her so terrible and she became so deeply sympathetic that I had to stop short to save her feelings.—Housekeeper.

First Man Dressmaker.

One day in 1730 a beautiful carriage appeared on the boulevard of Paris with an escutcheon in the shape of a pair of corsets and an open pair of scissors painted on the panel of each door. This was the coat of arms of Rhombert, the first man who made a name as a woman's dressmaker. Rhombert, who was the son of a Bavarian peasant from the neighborhood of Munich, owed his rapid success to his genius for concealing and remedying defects of figure. He left an annual income of 50,000 francs to his heirs.

Byron and His Title.

Professor Masson in the first published records of the ancient grammar school of Aberdeen recounts this school legend about the poet Byron: "It was said that on his coming to school the first morning after his accession to the peerage was known and on the calling out of his name in the catalogue no longer as 'George Gordon Byron,' but as 'Georgi Baro de Byron,' he did not rise with the usual and expected 'adsum,' but, feeling the gaze of all his schoolfellows, burst into tears and ran out."

Result of Laziness.

"When Mark Twain was a boy at school in Hannibal," said a veteran Missourian, "the schoolmaster once set the class to writing a composition on 'The Result of Laziness.'"

"Young Clemens at the end of half an hour handed in as his composition a blank slate."

Her Valuation.

"Elizabeth, has that man any expectations?"

"Fine, mamma."

"What do they consist of?"

"Me."

He Died Anyhow.

This was the way a native physician in India filled out a death certificate: "I am of a mind that he died (or lost his life) for want of foodings or on account of starvation. I am also for other things for comfortables, and most probably he died by drowning."

The Original "Village Blacksmith."

Dunchurch, near Rugby, claims that its smithy is the original forge which inspired the famous verses on "The Village Blacksmith." It is a picturesque old place, and the "spreading chestnut tree" still flourishes in front of it.—London Strand.

EXECUTION.

Department No. 1. In the Superior Court of the State of California in and for the City and County of San Francisco.

The people of the State of California to the sheriff of the county of Amador greeting:

Whereas, on the 1st day of November, A. D. 1906, James S. Brownell, plaintiff, recovered a judgment in the superior court of the State of California, in and for the city and county of San Francisco, against Wildman Consolidated Mines (a corporation) defendant for the sum of \$2074.50 dollars, damages, with interest thereon from the date thereof at the rate of seven per cent per annum till paid, together with costs and disbursements at the date of said judgment, amounting to the sum of \$19.75 as appears to us of record;

And whereas, the Judgment Roll in the action in which said judgment was entered is filed in the clerk's office of said court, in and for the city and county of San Francisco, and the said judgment was docketed in said clerk's office, in said city and county, on the day and year first above written.

And the sum of \$2074.50 with interest thereon as aforesaid, together with costs in the sum of \$19.75 as above recited, is now at the date of this writ actually due on said judgment.

Now, you the said sheriff, are hereby required to make the said sums due of the said judgment for damages, with interest as aforesaid and the costs, and accruing costs, to satisfy the said judgment out of the personal property of the debtor Wildman Consolidated Mines (a corporation), or if sufficient personal property of said debtor cannot be found, then out of the real property in your county belonging to said debtor on the day whereon said judgment was docketed in the clerk's office of the county of said city and county, or at any time thereafter, and make return of this writ within sixty days after your receipt hereof, with what you have done endorsed hereon.

In witness whereof, I have hereunto set my hand and affixed the seal of the said Superior Court, at my office in the city and county of San Francisco, state of California, this 5th day of November, A. D. 1906.

(Seal) H. J. Greif, deputy clerk.

Sheriff's Sale Under Execution.

Jas. S. Brownell plaintiff, vs. Wildman Consolidated Mines, (a corporation) defendant.

By virtue of an execution issued out of the Superior Court of the city and county of San Francisco, state of California, on the 5th day of November 1906, wherein Jas. S. Brownell was plaintiff, and Wildman Consolidated Mines, (a corporation) was defendant, upon a judgment rendered on the 1st day of November 1906, for \$2074.50 with interest at 7 per cent per annum and \$19.75 costs, besides accruing costs and disbursements, I have this day levied upon all the right, title, claim and interest of said defendant, Wildman Consolidated Mines, (a corporation) in and to the following real estate and premises situated in the county of Amador, state of California, and described as follows, to-wit:

Being those certain mines, mining claims and other properties, in Sutter Creek Mining District, county of Amador, state of California, embracing what is known as the "Wildman Quartz Mine," and particularly described as follows:—That certain mining claim known as the "Wildman Quartz Mine," being the same premises patented under the name of "Cyrus T. Wheeler," on the 11th day of July, 1883, which patent was on the 5th day of November 1886, recorded in the office of the county recorder of the county of Amador, state of California, at page 141 et seq., Amador County Records, to which patent and said record thereof reference is hereby made for a more particular description of said premises. Also that certain lot or parcel situated in the town of Sutter Creek in said county and state aforesaid, particularly described in that certain deed bearing date October 1st, 1896, executed by George M. Wachter and wife to W. H. Emerson and recorded on November 12th, 1896, in volume 13 of deeds, page 624, in the office of the county recorder of Amador county, state of California, to which deed and said record thereof reference is hereby made for a more particular description of said premises; also that certain lot of land situated in said county and state known as the "Wildman Gold Mining Company's Reservoir Site," and described as follows, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant; thence north 60 degrees 50 minutes west, 82 feet to a stake; thence north 5 degrees 30 minutes east, 39.5 feet to a stake; thence a line five oak 14 inches in diameter, blazed and marked X bears south 35 degrees 15 minutes west, 60.4 feet distant; thence north 50 degrees 40 minutes west, 10 feet to a fence built by James Tanner on the bank of Blue Lake Water Company's ditch; thence along said fence and said eastern bank of said ditch which runs closely to the following courses and distances, to-wit:—Commencing at a post in the fence on the north side of the one and Volcano road, whence bears the northeast corner of Blue Lake Water Company's "Tanner Reservoir" site, inclosed south 80 degrees 10 minutes east, 93.5 feet distant;
